STEMI Transfer Process

1. STEMI patient identified
EKG goal within 10 minutes of arrival
2. **Call the STEMI Hotline: 402.552.3444**
3. Transfer center will connect a priority call with interventional cardiologist
4. Consult with cardiologist for automatic acceptance and verbal authorization to activate Cardiac Catheterization Lab
Please fax EKG to 402.559.6205 and send copy of EKG with patient
5. Activate EMS **immediately** upon transfer acceptance
Fax demographics to 402.552.3228

PER AHA MISSION: LIFELINE GUIDELINES

If transport time is greater than 90 minutes, or overall first medical contact to PCI is greater than 120 minutes, consider thrombolytics. When giving thrombolytics, door-to-needle goal is ≤ 30 minutes with immediate transport to closest PCI receiving center.
